I have sent a document to you and Michele that might add a little more light to this MOA.

Hi Joe –

Attached is a copy of a memo with attachments we found in our files. The brief cover memo, dated Dec 13, 1982 is from a section chief in our Water Program to Phil Tate, UIC Review Coordinator, State Program Division (HQs). There are two attachments: 1) a letter from CA Deputy AG to EPA Region 9 regarding the CA primacy application; and 2) MOA between DOGGR and EPA. As you will see, this version of the MOA (signatures appear identical to those on the version you have) contains a change in the language about aquifer exemptions on p.7 and includes a longer Attachment 2 list, which is a combination of all the formations on Attachments 2 and 3 of the version of the MOA you have. This version of the MOA makes no reference to Attachment 3.

Let me know if you have any questions.

Thanks,

David

Hi Michele,

Thanks for sending this version 1 of the MOA. This is what we have in our file. Do you want us to still send it to you?

I look forward to receiving version 2.

I am in tomorrow and happy to work with Leslie to look at the files in our possession.

Joe.

Hi Joe,

I need to get a scanned version of the one with the longer Attachment 2 and no attachment 3. I

do not have that in my possession.
